

Some MUST KNOW String methods

int length()

char charAt(**int** index)

String trim()

String toLowerCase()

String toUpperCase()

int indexOf(**char** ch)

int indexOf(**char** ch, **int** fromIndex)

int lastIndexOf(**char** ch)

*(Similar methods accept String instead of **char**)*

String substring(**int** beginIndex)

String substring(**int** beginIndex, **int** endIndex)

int compareTo(String str)

int compareToIgnoreCase(String str)

boolean equals(Object anObject)

boolean equalsIgnoreCase(String str)
